Support and recreational activities in Butea for the activities of the orphanage and the care home of the association

SOMETHING ABOUT ME...

Agonistic volleyball since the age of 10 has taught to me to work with the team, to always give my best and to overcome difficulties. Since three year I practice Beachvolleyball that allow me to keep on improving these behavioural skills. My passion for photography has provided me the capacity to always pay attention to details. The curiosity and enthusiasm that characterize myself have pushed me to spend periods of time abroad since the age of 14. In England, Ireland, Germany, Spain and Austria I have deepened the knowledge of European foreign languages and developed relational skills. Subsequently, my love for travelling has led me to volunteer in Romania and Thailand, experiences that have profoundly enriched my attitude to study other cultures and societies. With internships at UNICEF and Cometa I combined my professional desires with my passion for the society, the social and nonprofit sector.
