EDUCATION

University of Milan – University of Turin

October 2025 - Present

PhD candidate in Sociology and Methodology of Social Research (SOMET)

My doctoral project examines the transmission of intergenerational inequalities in the UK and Germany, by analysing how the parental division of labor during the transition to parenthood affects children's long term outcomes in health, education and labor market trajectories.

University of Turin - Collegio Carlo Alberto

September 2024 - September 2025

Second Level Master in Welfare: Theoretical Foundations and Data Analysis (WEDA)

The program covers topics as welfare system sustainability, taxation, pension systems, impact evaluation of public policies, economic theory of the firm, labour economics, demography, and the economic theory of saving and individual decision-making, with a strong focus on data-driven analysis of socio-economic systems.

University of Turin

July 2023

MA in International Studies (LM-52)

Focus on international political economy, comparative public policies, global governance, and the role of institutions in economic development. The program provided interdisciplinary training across economics, political science, and law, with attention to both quantitative and analytical tools.

University of Urbino

July 2018

BS in Information, Media and Advertising (L-20)

The program focused on communication theories, media analysis, advertising strategies, and digital marketing, providing a solid foundation in media studies and the socio-economic impact of information and communication technologies.

ITCS G. Sommeiller, Torino

High School Diploma in Accountancy and Bookkeeping

Focus on economics, accounting, law, political economy, and business studies.

RESEARCH INTERESTS

My primary research interest concerns the quantitative evaluation of public policies and their effects on labour and family outcomes, with a specific interest on children, couple dynamics, and demographic behavior. I am also interested in emerging and less traditional family forms, with a specific focus on non-resident fathers and their children's well-being. I mainly adopt quantitative and comparative methods to understand cross-national variations and causal mechanisms.

RESEARCH EXPERIENCE

Research Scholarship

March 2025 - May 2025

University of Eastern Piedmont / Fondazione CARIPLO

Awarded a research scholarship to conduct an in-depth descriptive and statistical analysis of INVALSI datasets (2018-2024), focusing on patterns in educational achievement across student groups and schools.

Junior Researcher

March 2025 - May 2025

CNR IRCrES (Internship)

Evaluated the impact of an adaptive physical activity (APA) program for older adults using an RCT design and mixed quantitative-qualitative methods; the study, in which I will be listed as co-author, is forthcoming in an academic journal.

FURTHER EXPERIENCE
